Tuvshin-Ochir Gansoyol

FULL STACK DEVELOPER

Profile

Full Stack Developer with two years of hands-on experience in designing, developing, and deploying web applications. Proficient in both front-end and back-end technologies, with a keen eye for detail and a passion for creating seamless user experiences. Adept at collaborating with cross-functional teams to deliver innovative solutions that meet both client requirements and industry best practices. Eager to leverage my expertise and continue contributing to dynamic projects in a growth-oriented environment.

Advantages

- I have served in the military, therefore, I am well-trained in working under pressure and have excellent interpersonal skills.
- I'm a self-taught programmer, so I have developed a unique learning method that helps me grasp difficult concepts faster. This gives me a big advantage in software engineering.
- I have worked on various types of business projects as well as projects related to AI machine learning in my career (it is possible to see the detailed projects on the portfolio)

Employment History

Front-End developer, ICT GROUP JSC, Ulan Bator

MARCH 2022 — JANUARY 2023
